MP C3004
30 ppm monochrome and full-color

MP C3504
35 ppm monochrome and full-color
Welcome to Workstyle Innovation. Now you can integrate multiple processes and simplify complex tasks across an office or throughout an organization with ease. Enjoy a new way to work, powered by Lanier’s new Workstyle Innovation Technology, by creating unique and customized solutions and deploying workflow applications that streamline your business. Simply put, it’s an innovative and intuitive way to be more productive. Use the LANIER™ MP C3004/MP C3504 to print, scan, copy and fax information in multiple formats to a wider range of audiences quickly and easily. Use the advanced 10.1”-wide Super VGA Smart Operation Panel to create your own digital workflows — with shortcuts, advanced scan-to capabilities and time-saving automation — so you can deliver your messages effortlessly with a simple flick, pinch or swipe. Add richer colors, sharper resolution and professional finishing to highlight information and impress audiences every time.

- Produce up to 35 color prints/copies per minute
- Use the intuitive touchscreen to multitask with a single flick, pinch or swipe
- Create customized workflows to expedite everyday tasks
- Print and share information on the go via your personal mobile device
- Highlight information with breathtaking colors and professional finishing
- Take advantage of eco-friendly features to lower operating costs and reduce overall environmental impact without sacrificing business productivity
Multitask at a faster pace
Move information quickly, anywhere at any time

Get in touch with all-in-one convenience
There’s no shortage of things to do or information to share, but you are short on time. Use the Lanier MP C3004/MP C3504 to perform everyday office tasks with incredible speed and ease. With a built-in motion sensor, the MFP is ready to work as soon as you are. Print colorful presentations, images, brochures and more at up to 35 pages per minute and grab them on your way to an important meeting. Send full-color scans of floor plans, schematics and photos via email. Copy handwritten notes for your colleagues. Send a contract via fax without wasting paper or wondering if it was received. With an optional paper capacity of up to a whopping 4,700 sheets, you can manage more projects with fewer interruptions so you can transition quickly from one revenue-generating project to the next.

Add color to look even brighter
Stand out from the crowd by delivering information that jumps off the page. As the MP C3004/MP C3504 processes each file, it recalibrates itself so colors remain vivid with 1200 dpi resolution from the first page to the last without deterioration. By using PxP®-EQ toner, you can print on thicker stocks up to 300 gsm/80 lb. Bond without worrying whether it will stick precisely. To give your photos, brochures, presentations and other graphics-intensive documents a more professional look, choose the new Fiery® E-23C Color Controller for exceptional spot-color reproductions using RGB, CMYK and PANTONE® colors. You can even print banners and posters from the MFP instead of hunting down a wide-format device.

Work wherever you are
Your workload isn’t going to stop. Why should you? Use your smartphone or tablet to locate the MFP and print on the move without utilities, software or drivers. You can download the Smart Device Connector app and connect to the MP C3004/MP C3504 automatically just by touching your smart device to the MFP’s Near Field Communication (NFC) tag. From there, print, scan and share documents and photos between the MFP and your smartphone or tablet instantly. You can even use your personal address book to find recipients with a single touch to save time. With the Smart Device Connector app, you can grab information from Cloud storage or on your personal mobile device for fast, convenient printing at the MFP.
Customize the way you work

Add a personal touch to every job
You know exactly what needs to be done. Use Workstyle Innovation Technology to get it done faster. Create your own customized iconic shortcuts for frequently used workflows, whether you’re scanning documents to coworkers or printing out the latest color brochure. Simply tap into one of the workflows from the Home Screen and bypass several manual steps that can slow you down. For faster scanning of two-sided identity documents, simply click on the ID Card Copy app and the device scans both sides onto a single-sided document for easier reading with less waste. For easy document retrieval, use the embedded OCR option to place metadata on images and PDF files, so you can search by keywords later in a fraction of the time. Add plug-and-play Lanier or third party software to streamline digital workflows and reduce paper and operating costs even more.

Tap into a smarter way to work
Finding the best way to improve productivity is pretty straightforward. Use the easy-to-follow design of the touchscreen to perform document management tasks more quickly and accurately. With Workstyle Innovation Technology, you can choose from a wide range of smart apps on the new user interface to simplify everyday workflows for printing, scanning, copying, faxing and more. Just tap on your desired task and see everything you need to make the best decision. For example, you can add, check and confirm scan-to destinations by scrolling and tapping. Or, you can change any scan setting with a simple flick of your finger. Use widgets to set shortcuts, adjust settings, check system status, grab online data and more in seconds from the device. You can even download additional apps and widgets from our Application Site and update the MFP’s capabilities yourself with ease.

Take a swipe at faster workflows
Get in touch with an easier, more intuitive way to churn through jobs with the MP C3004/MP C3504. Use the familiar drag-and-drop, pinch-and-flick and swipe scrolling you use every day on your smartphone or tablet to navigate from one task to the next with ease on the impressive 10.1”-wide Super VGA touchscreen. We’ve removed all hard keys, so you can tap into workflows, access critical information and check system settings instantly. With the oversized screen and simple layout, you have everything you need right at your fingertips. In fact, you can perform frequently-used core tasks like printing, copying, scanning and faxing, from a simplified user interface with one-touch controls. Still prefer the legacy user interface from previous Lanier devices? No problem. Just choose a touchscreen version of it from the Home Screen.
Make easier and safer collaboration automatic

Complete more jobs with fewer delays

The more your audience waits, the more likely it is to find information elsewhere. Use the MP C3004/MP C3504 to instantly access up to 3,000 frequently used documents stored right on the device. Or, you can use your personal mobile device or our web-enabled Integrated Cloud Environment (ICE) to grab information without servers, system integration, software updates or expense. Scan two-sided hard copy documents at 180 ipm with the 220-sheet Single Pass Document Feeder. Take advantage of a wide range of scan-to capabilities to share the information digitally with anyone, anywhere. For output, use Device Software Manager and install print drivers without assistance in only moments. Track how you’re doing via optional web-enabled administration tools, including automated service alerts, real-time device monitoring and troubleshooting.

Keep tabs on what’s most important

Your ideas can only make an impact if they reach the right people. Help protect information from threats with multiple security capabilities, including user authentication. Have every user log in by entering a passcode or billing code. Or, with the MFP’s embedded Near Field Communication (NFC) capability, have users swipe their ID card at an optional NFC card reader on the device. You can restrict individual users from specific tasks or set quotas to limit the number of prints. Plus, it helps ensure print jobs for mobile users remain secure until released at the MFP. You can also take advantage of watermarks to help thwart unauthorized copies of confidential documents, encryption protection and automatic overwrites for any information left on the hard drive.

Save your energy

Improve your bottom line while protecting the environment with multiple features designed specifically to reduce energy costs. The MP C3004/MP C3504 meets EPEAT® Gold criteria* and ENERGY STAR® certifications and offers exceptional Typical Electricity Consumption (TEC) as low as 1.2 kWh/week. Cut paper usage in half with default duplex printing. Reduce energy usage when you’re out of the office by programming the MFP to power on or off to coincide with office work hours. The system is also equipped with an innovative motion sensor, which senses an approaching user by detecting the differences in body temperature versus the surrounding environment. The system will awake from Sleep mode and turn on the operation panel within one second so it is ready to begin job programming by the time the user arrives at the machine.

*EPEAT Gold rating is applicable only in the USA.

Perform more jobs with fewer hassles

1. **Smart Operation Panel**: Choose from multiple intuitive user interfaces to customize and automate workflows on the 10.1”-wide Super VGA Smart Operation Panel. Create iconic shortcuts, add convenient widgets and access information with one-touch control using the same motions you use on your smartphone or tablet.

2. **220-Sheet Single Pass Document Feeder (SPDF)**: Copy, scan and fax two-sided full-color and black-and-white documents at high speeds in a single pass.

3. **User Authentication**: Use embedded Near Field Communication (NFC) technology and an optional NFC Card Reader to track activity for every user who logs in by proximity card.

4. **Paper Trays (Standard)**: With two 550-sheet paper trays, one of which can accommodate paper sizes up to 12” x 18”, you can produce more jobs with fewer reloads.

5. **100-Sheet Bypass Tray**: Feed larger paper sizes — including envelopes and sheet sizes up to 12.6” x 49.6” — to create and share a wider range of deliverables with your audiences. Add an optional banner paper guide tray for impressive banner printing.

6. **Document Server**: Access up to 3,000 frequently used files on the MFP’s hard drive in moments. Create up to 200 shared or passcode-protected personal folders to store the digital files.

7. **Tandem Large Capacity Tray (Optional)**: Add more capacity for extended runs of 8.5” x 11” sizes with two 1,000-sheet paper trays.

8. **1,500-Sheet Side Large Capacity Tray (Optional)**: Maximize uptime by extending capacity by up to 1,500 sheets of letter-sized paper.

9. **125-Sheet One Bin Tray (Optional)**: Separate output so users can retrieve documents quickly.

10. **1,000-Sheet External Hybrid Stapleless + Stapler Finisher**: Use the stapleless feature for smaller document sets (up to five sheets). Need a larger document set? The finisher automatically staples for six or more sheets. In addition, you can choose from a wide range of other available finishers (see table on page 7).

11. **Dual Network Support (Optional)**: Use the additional network interface port to connect to two different networks simultaneously.

12. **Web Browser**: Take advantage of the built-in web browser to search for web pages directly from the Smart Operation Panel.

13. **Motion Sensor**: Senses approaching users and awakens the MFP from Sleep mode so it is ready by the time the user arrives at the machine.
Put your best finishing touches on display

Add the finishing touches so your message connects with your audience every time. With the External Hybrid Stapleless + Stapler Finisher, you can conserve resources by eliminating staples entirely for document sets with five or fewer pages. For document sets from 6 – 50 pages, the finisher automatically converts to staples. Or, choose the Internal Stapleless Finisher and get the same staple-free capability. Both stapleless finishers are ideal for educational, manufacturing and healthcare environments.

Looking for a finisher to accommodate your unique requirements? Simply choose the one with the advanced paper handling, stacking and stapling capabilities you need most. Automate finishing tasks and give your projects a professional-grade look that’s sure to get noticed without compromising your time or budget.

### Security Features (Standard)
DataOverwriteSecurity System (DDSS), HDD Encryption, User Codes, SNMP v3 Support, Encryption, Locked Print, User Authentication, 802.1x Wired Authentication, Quote Setting/Account Limit, Digitally Signed PDF, and more.

### Hardware Accessories
**Paper Handling Options**
- **Two-Tray Paper Bank (PB3160)**
  - Tray Capacity: 1,100 sheets (550 sheets x 2 trays)
  - Paper Size: 7.25” x 10.5” to 12” x 18” (A5 – A3)
  - Paper Weight: 14 – 80 lb. Bond/166 lb. Index (52 – 300 g/m²)
  - Dimensions (WxDxH): 23.1” x 27” x 9.7” (587 x 685 x 247 mm)

- **One-Tray Paper Bank (PB3110)**
  - Staple Positions: Top, Bottom, 2 Staples
  - Staple Paper Size: 7.25” x 10.5” to 12” x 18” (A5 – A3)
  - Staple Paper Weight: 50 sheets (8.5” x 11” or larger) (A4)
  - Dimensions (WxDxH): 550 sheets x 1 tray (52 – 300 g/m²)

- **Dimensions (WxDxH)**: 23.1” x 27” x 4.7” (587 x 685 x 120 mm)

### Staple Capacity
- **Normal Staple:** 50 sheets (8.5” x 11” (A4)); 30 sheets (8.5” x 14” or larger) (B4 – A3)
- **Top:** 14 – 80 lb. Bond/166 lb. Index (52 – 300 g/m²)
- **Normal Staple:** 50 sheets (8.5” x 11” or larger) (A4 – A3)
- **Top:** 14 – 80 lb. Bond/166 lb. Index (52 – 300 g/m²)

### Color Controller E-23C
- **Controller Type:** Embedded Type
- **Fiery Platform:** F5150
- **CPU:** Intel Processor G850 2.9GHz
- **Host Interface:** 1000Base-T/100Base-TX/10Base-T
- **Memory:** 2 GB
- **Internal HDD:** 500 GB
- **Operating System:** Linux
- **Network Protocol:** TCP/IP (IPv4/IPv6), SMB, Bonjour
- **Standard:** PostScript 3 & PCL3

### Additional Accessories
BANNER Paper Guide Tray Type M19, Caster Table Type M3, Bridge Unit BU3070, Cabinet Type E, Camera Direct Print Card Type M19, Card Reader Bracket Type M352, Extended USB Board Type M19, External Keyboard Bracket Type M19, Fax Connection Unit Type M19, Fax Memory Unit Type M19 64MB, File Format Converter Type M19, G3 Interface Board Type M19, HotSpot MP Option Type 5, IEEE 802.11a/g/n Interface Unit Type M19, IEEE 1284 Interface Board Type M19, Imageable Area Extension Unit Type M19, Key Counter Bracket Type M3, Memory Unit Type M19 4GB, NFC Card Reader Type M19, OCR Unit Type M13, Optical Counter Interface Unit Type M12, Postscript Unit Type M19, Power Filter ESP XG-PCS-15D, Smart Card Reader Built-in Unit Type M19, USB Device Server Option Type M19, XPS Direct Print Option Type M19
